Objective

Enthusiastic Artificial Intelligence and Data Science student with a strong foundation in machine learning, data analysis, and problem-solving. Seeking an AI Internship to apply analytical skills, build intelligent solutions, and gain hands-on experience in real-world AI applications.

Education

Bachelor of Engineering (B.E.) in AI & Data Science

CGPA: 6.68/10

JIT College, Nashik

2023-2026 (pursuing)

Experience

AI/ML Virtual Intern – EduSkills

- Completed a virtual internship focused on Machine Learning and Data Analysis
- Worked on data preprocessing, cleaning, and visualization techniques
- Implemented basic ML models such as Linear Regression and Classification
- Understood concepts like model training, testing, and evaluation

Technical Skills

- **Programming:** Python, JavaScript, Java
- **AI/ML:** Machine Learning basics, Data Preprocessing, Model Evaluation
- **Web Development:** MERN Stack (MongoDB, Express, React, Node.js)
- **Tools:** Git, GitHub, Streamlit, Power BI
- **AI Tools:** ChatGPT, Gemini, Claude, Perplexity, Cursor, Lovable

Projects

Sign Language Detection System

- Developed a real-time sign language detection system using computer vision techniques
- Captured hand gestures through a webcam and processed them for recognition
- Applied machine learning algorithms to classify different hand signs
- Improved accessibility by enabling basic communication for hearing and speech-impaired users

AI News Summarizer

- Created a tool to summarize news articles using basic NLP techniques
- Improved readability and reduced content size

Certifications

Data Analytics Job Simulation(Deloitte)

Python for Data Science (Letsupgrade)
