Education

MVPS's Karmaveer Baburao Thakare College of Engineering, Nashik 2023 – Present
B.E. in Information Technology, Savitribai Phule Pune University CGPA: 7.5/10

Experience

WildTech Intern – Wildlife Conservation Trust (WCT) June 2026 – Present
Remote

- Engineered full-stack chatbot modules and 3 interactive dashboards using Node.js and MongoDB, consolidating data from 5+ wildlife tracking sources into a single interface.
- Designed and shipped 8+ RESTful API endpoints powering core data retrieval, reducing manual data-handling steps and accelerating feature delivery across the team.
- Shipped iterative feature updates across biweekly Agile sprints, collaborating with a cross-functional team of developers and conservation scientists.

MERN Stack Developer Intern – Codec Technologies Pvt. Ltd. Jan 2026 – Feb 2026
Remote

- Built 2 full-stack web applications using React.js, Node.js, Express.js, and MongoDB as part of an AICTE–ICAC approved internship program.
- Developed responsive frontend components and RESTful backend APIs, covering end-to-end feature workflows from UI to database.
- Adopted Git-based version control and Agile/Scrum practices, maintaining clean commit history across a multi-developer codebase.

Projects

VertexJob – AI-Powered Recruitment Platform GitHub
React.js, Node.js, Express.js, MongoDB, JWT, OAuth 2.0, Gemini API, Tailwind CSS

- Built a full-stack recruitment platform with JWT and OAuth 2.0 authentication and RBAC across 3 user roles (candidate, recruiter, admin), reducing unauthorised access surface.
- Designed and integrated 10+ RESTful API endpoints covering user management, job postings, and application workflows end-to-end.
- Automated resume analysis and ATS-style feedback via the Gemini API, cutting manual recruiter shortlisting time by an estimated 60%; added Nodemailer-driven email notifications.

Ascend – Centralized Student Activity Management Platform GitHub
React.js, Node.js, MongoDB, Supabase, Tailwind CSS

- Engineered role-based dashboards and approval workflows for 3 user types (students, faculty, admins), replacing a fully manual paper-based reporting process.
- Integrated 6+ REST APIs with Node.js and MongoDB/Supabase, centralising activity data management across all platform modules.
- Implemented JWT authentication, AI-assisted suggestions, certificate validation, and automated PDF portfolio/report generation.

Technical Skills

Languages: JavaScript, Java, Python
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, RESTful APIs
Databases: MongoDB, MySQL, PostgreSQL
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems
Tools: Git, GitHub, Postman, Docker, VS Code

Achievements & Certifications

- Smart India Hackathon 2025** – Led 5-member team to the college-level screening round (SIH25093).
- Web Development** – Apna College (HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB).
- Data Structures & Algorithms** – Apna College.
